

Research Data Publication on mediaTUM Request Form

The TUM University Library offers you a free of charge data publication service. Your research data can be made publicly available on mediaTUM, the institutional repository of the Technical University of Munich.

With this form you provide us with information necessary to publish your data on mediaTUM. Please create meta-data and descriptions as detailed as possible since rich metadata will make your research data collection discoverable, citable, reusable and accessible in the long term. All of this will increase the visibility and traceability of your research and improve your reputation and impact.

For further information please visit the TUM Research Data Hub's [website on archiving and publishing of research data](#). Also note that the [TUM's Acceptable Use Policy for Information Technology Resources](#) applies.

<i>Required fields are marked with *</i>	How to complete the form
Authors* <small>(Format: Last Name, First Name; Last Name, First Name)</small>	Please provide researchers involved in the data production.
Corresponding Author* <small>(Format: Last Name, First Name; Email Address; TUM ID)</small>	Provide a contact person who is permanently responsible for the dataset.
Author Affiliation <input type="checkbox"/> TUM Others:	If the authors are TUM members, check the box "TUM"; otherwise please use the free text field to list their affiliations.
TUM ID <small>(Format: xx11yyy)</small>	Provide us your TUM ID in order to give you authorisation to upload and edit the dataset.
Title of the Dataset*	Choose a heading or caption that sufficiently describes your dataset.
Description	Create a detailed description of the dataset to make it comprehensible for others.
Chair Affiliation	Specify to which chair your dataset should be assigned in the menu structure of mediaTUM. (e.g. TUMAF27).

<p>Additional Subject Areas</p>		<p>If necessary, enter further subject areas exceeding the select options above.</p>
<p>Keywords <i>(Format: Keyword; Keyword; Keyword – separated by semicolon)</i></p>		<p>Provide several keywords for your dataset, which will be included in the mediaTUM search index. Choose keywords in the common language of your scientific community.</p>
<p>Resource Types*</p> <p><input type="checkbox"/> Experiments or observations</p> <p><input type="checkbox"/> Simulations</p> <p><input type="checkbox"/> Image of objects</p> <p><input type="checkbox"/> Surveys or interviews</p> <p><input type="checkbox"/> Statistics or reference data</p> <p><input type="checkbox"/> Log files or usage data</p> <p><input type="checkbox"/> Text documents</p>		<p>Check one or more boxes to describe the origin of your data.</p>
<p>Additional Resource Types</p>		<p>If necessary, enter further resource types exceeding the select options above.</p>
<p>Data Types*</p> <p><input type="checkbox"/> Sound</p> <p><input type="checkbox"/> Images</p> <p><input type="checkbox"/> Databases</p> <p><input type="checkbox"/> Software or applications</p> <p><input type="checkbox"/> Tables</p> <p><input type="checkbox"/> Texts</p> <p><input type="checkbox"/> Audiovisual collections</p> <p><input type="checkbox"/> Models</p>		<p>Check one or more boxes to describe what kind of data you intend to upload.</p>
<p>Additional Data Types</p>		<p>If necessary, enter further data types exceeding the select options above.</p>
<p>Language</p> <p><input type="checkbox"/> German</p> <p><input type="checkbox"/> English</p> <p><input type="checkbox"/> Other:</p>		<p>Specify the primary language used in the dataset.</p>

Method of Data Assessment	Provide a detailed description of the tools and infrastructure which were used to create and process the data. Also describe the context in which the data was generated.
Time of Production (Format: dd.mm.yyyy)	Indicate the end date of the data production.
Data Volume (Format: Number + Unit)	Specify the necessary storage space, e.g. 2000 MB.
Number of Files (maximum: 5-digit number of files, e.g. 99999, archive if more)	Estimate the number of individual files which you intend to upload.
Links	Provide URLs to related material, e.g. the DOI of the article published on the basis of this dataset.
DOI <input type="checkbox"/> requested <input type="checkbox"/> not necessary	As soon as a Digital Object Identifier (DOI) is registered, the dataset must not be changed any more.
Data Updates <input type="checkbox"/> expected <input type="checkbox"/> not expected	Do you anticipate changes to the dataset after completion of the publication process?
Horizon Project ID	In case of a EU Horizon Project, please provide the funding number.
Embargo Period	In case of a temporary publication block, please inform us and discuss further details with us.
Publication Deadline (Earliest possible date is five working days from date of application.)	In case of deadlines, e.g. for the submission of a paper, please inform us about your schedule and the latest possible publication date.
License	Assign a license under which your dataset should be published in order to clarify the conditions for reuse. We recommend CC BY 4.0. See also our Guidance for the Publication of Scientific Data .
Peer Review Login <input type="checkbox"/> requested <input type="checkbox"/> not necessary	If desired, we can provide anonymous login options for peer reviewers prior to publication.
Declaration <input type="checkbox"/> I declare that the publication of this dataset does not interfere with intellectual property rights, data privacy laws, personal rights of others or with agreements on research co-operations.	For legal reasons, we need this rights declaration in order to publish your dataset. In case of doubt, do not hesitate to ask us.
Comments	Let us know if you need further support or if you have any questions.
